EDUCATIONS

Master's Degree in Digital Design & Interactive Technologies 2021-2023
IT-University of Copenhagen

My Master's degree in Digital Design and Interactive Technologies equipped me with the skills and insights necessary for crafting both digital and physical products. This encompassed coursework in physical computing, 3D modeling, human-computer interaction, and an ongoing mastery of Figma to create user-centered digital designs.

Bachelor's Degree in Web Development 2019-2021
Copenhagen Business Academy

During my professional bachelor's degree in web development, I acquired expertise in the underlying technology driving modern digital products. This encompassed in-depth training in front-end and back-end development, as well as continuous application of UX theories and models, including interaction design and emotional design.

AP Degree in Multimedia Design 2017-2019
Copenhagen Business Academy

Through my multimedia design course, I honed my graphic skills and developed a deep understanding of graphic design principles. I gained proficiency in various programs within the Adobe package, among others. As I progressed, I specialized in front-end development, with a particular focus on web design, PHP, and JavaScript.

WORK EXPERIENCE

Webdesigner 2020
Væksthuset Rosendal & Co

In my role as a web designer at Væksthuset Rosendal & Co, I applied my skills in practical website design and implementation using WordPress for the agency's clients. Additionally, I actively engaged in regular customer meetings throughout the process, gaining valuable insights into the significance of effective client communication.

Webdesigner 2019
Siteworks

At Siteworks, I was responsible for designing websites and integrating them into Siteworks' proprietary CMS system. Throughout the project lifecycle, I maintained regular communication with clients to ensure their specific needs were met. Additionally, during this experience, I gained valuable insights into SEO and Google AdWords practices.
